Das Original

COMPLETE CATALOGUE

COLLECTORS ACCESSORIES OF DISTINCTION

Numismatic . Philatelic . Other Collection Areas

LINDNER - *Das Original*

THE TASK...

As a collector of stamps, coins, medals, banknotes and other objects you have taken on the rewarding task of safeguarding objects that may have monetary, personal or cultural significance. Through this you are documenting the present and the past in a very special format.

At Lindner we have made it our primary mission to support you in your passion with our collecting systems. Whether your passion is to collect objects to preserve or enhance the value, or to research and develop a collecting theme, the presentation and storage of your collection is a fundamental part of your passion. The Lindner product portfolio offers a wide range of possibilities and essential accessories to aid you in your hobby.

THE ESTABLISHMENT...

In 1947 August Lindner began to develop products for collectors and over the following years continued to expand these. What began as a small company with only a few products and co-workers has developed into a mid-sized global business with a considerable product range and variety; committed to unholding tradition and also innovating new ideas. The first coin album available in Germany is still a treasured Lindner product to this very day. The hingeless (falzlos) system, the T-products and last but not least, the Lindner coin boxes, are all inventions "Made by Lindner" which have found their place in the world of collecting. The continual enhancing of the portfolio by working together with collectors and dealers alike, has made Lindner a household name in collector's circles.

In 2006, just about 60 years after the company's founding, the family's 4th generation took over the management of the Lindner business and is now leading this internationally established enterprise with its title unchanged. Our primary commitment is still offering high-quality, safe, beautiful and practical conservation of collector's objects. Since its founding, the company's headquarters are in Schömberg near Balingen in the Zollernalbkreis region. Through a network of both domestic and foreign dealers and distributors, we are represented nationally and internationally, enabling us to offer our products worldwide.

THE CLAIM...

Our principal goal to support you in your collector's passion is assured through our high standards of quality. We see quality control in production and deliveries as a responsibility and self-evident. A large portion of our products are still either self-produced or manufactured in German and European companies, which guarantees us a fast and efficient access to product and quality control. Evidence of this claim is the worldwide recognition of the LINDNER name.

THE SERVICE...

Our high quality standards of control extend themselves into our after sales service and our experienced advisory service. This applies equally for our advisory teams in our headquarters in Schömberg, as well as for our subsidiaries and representatives worldwide. Through a long established collaboration with our sales partners we are now represented in 100 countries around the world.

REGENSBURGER DOM
DEUTSCHLAND / GERMANY

Husband and wife partners Lindner-Wenger -
Owners and managing directors now in the 4th generation.

In the spring of 2011 the headline of an article was "World Cultural Heritage Dome of Regensburg on a special stamp issue". This inspired us to find out, what else is available on the World Cultural Heritage theme in the areas of philately and coin collecting.

We were very surprised at the vast amount of themes which are found in stamps and coins from the different countries. Again we were shown how interesting and informative the hobby collecting - or better said the passion of collecting - can be. Surely there are many more reasons to indulge in this area of collecting, although usually the interest in people, culture and history are the main reason.

Our fascination for the beauty of themes and the sometimes thrilling stories behind them, have motivated us to dedicate our new catalogue to the theme

UNESCO WORLD CULTURAL HERITAGE.

We hope that you enjoy the background pictures and who knows...perhaps it will inspire you to begin collecting the corresponding collection. Of course, keeping it safe in our renowned LINDNER Originals.

In our new catalogue you will find a balanced mixture of well-tried and new ideas for the most diverse areas of collection. We are certain that you will find something fitting for your treasures. Just take a look!

All that remains now is for us to wish you great enjoyment and much inspiration while browsing through our new catalogue. You are always welcome on our homepage, one of the many collector's fairs and events we attend or personally here in Schömberg in the Zollernalb region. The same goes of course for our subsidiaries or one of our many trade partners nationally and internationally.

Cordially yours

Oliver Lindner & Frank Wenger
